Education

NMAM Institute of Technology

B.Tech Computer Science & Engineering

2023–2027

CGPA: 8.9/10

Little Rock Indian School

Class XII: 90.8% Class X: 94.8%

2023

Experience

Sahasranshu Technologies

Software Development Intern

Jun 2026 – Present

- Developed backend modules for enterprise applications using Java, Spring Boot and PostgreSQL while following Agile software development practices.
- Designed unit and component tests, improving software reliability, maintainability and code quality.
- Developed and validated multiple REST APIs supporting backend service integration and automated testing workflows.
- Collaborated with engineering teams using Git, Maven and modern software development workflows.
- Applied secure coding practices, debugging and production-ready testing methodologies.

Projects

Parixa – AI Powered Examination & Proctoring Platform

React, Node.js, Express, MongoDB, Gemini API, JWT

- Built a full-stack MERN examination platform and integrated Google Gemini API to automatically generate structured MCQs from syllabus documents.
- Implemented JWT authentication, browser-native proctoring and secure answer masking.
- Designed scalable student management with bulk CSV import and automated exam scheduling.

VoltStrata – AI Powered Household Energy Forecasting

Python, FastAPI, React, Astro, Random Forest

- Developed an AI-powered forecasting platform processing over 2 million energy records.
- Engineered features and deployed FastAPI backend with React frontend on cloud platforms.
- Achieved strong regression and classification performance using Random Forest models.

Technical Skills

- **Languages:** Java, Python, JavaScript, SQL, C
- **Frameworks:** Spring Boot, React, Node.js, Express, FastAPI, Astro
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools:** Git, GitHub, Docker, Maven, VS Code, Postman
- **Core CS:** DSA, OOP, DBMS, Operating Systems, Computer Networks, REST APIs, Agile

Leadership

- **Head, Cultural Committee (Incoming)** – Incridea'27; previously served as Co-Head for Incridea'26, coordinating teams, volunteers and event operations.
- **Joint Cultural Secretary** – Association of Computer Engineers.
- **Digital Media Head** – Stereo Club-Organized performances and collaborative cultural events.
